Work Experiences

Product Designer

July 2018 - Current

Lime

San Francisco, CA

- Designed and created a new onboarding experience to educate users how to ride lime scooters and other products, and to help build a better relationship.
- Designed and prototyped a feature in the admin tool that allows local teams to customize their onboarding experience based on their markets and local regulations.
- Designed the ID scan flow in Lime's mobile app to cut down user drop-offs and fulfill market requirements.

Product Designer

Feb 2018 – July 2018

Fohlio, Inc

New York, NY

- Defined user needs, created wireframes and prototypes for features in Fohlio Web app to facilitate the product approval process for clients to work with interior designers.

Compound Data XD Intern

May 2017 - Aug 2017

Autodesk, Inc.

San Francisco, CA

- Worked with a Scrum team to design and prototype a feature in AutoCAD that leverages machine learning on the cloud platform to help users reuse content more effectively.
- Collaborated with a developer to create a data visualization dashboard that demonstrates customer measurements.

UX/UI Design Intern

Jun 2016 - Aug 2016

CRun Information Industry Co., Ltd

Chongqing, China

- Generated UI and UX designs of "Yuyouhui" Web app built on Wechat platform, which presented a better shopping experience for users.
- Established a visual design language of the web app.
